

KUDO for Microsoft Teams Live Events

Attendee Guide

- 1 **Join the webinar** on Microsoft Teams Live Events.
- 2 To follow the event in a different language, **click on the “KUDO Web Link”** provided by the event organizer.

<https://audio-widget.kudoway.com/xxxxxxxxxxxxx>

- This will open a webpage with the “KUDO language selector”.
- The link can be accessed on any desktop, laptop, mobile or tablet, regardless of the device you are engaging in your Microsoft Teams Live Events. *For example, you have the option to watch the event on your laptop but listen to the interpretation on your mobile.*

- 3 **Choose your preferred language** from the language dropdown. The interpretation will start coming through.

- If available in your event, click on **CC** to turn on closed captioning in your selected language.
- On the bottom of the screen, you can click on  to change your interface language. *Note: this does not select the interpretation language you want to listen to during the event.*

- 4 If you select a spoken language, you may have to **mute the original audio** from the event on Microsoft Teams.

Enjoy your multilingual experience!
